COMPETITION—has set a standard of price but our ever increasing business shows that our glasses are the most satisfactory to be had for the price whether the purchase price be the cheapest or the best. Dixon & Son, Sight Specialists.

Drainage District to Organize.

Following the mandate to the District Court that it shall organize Drainage District No. 1, Lincoln County, a legal notice to all property holders in the Drainage District will be issued calling a meeting for the election of five supervisors. It will be their business to secure estimates and specifications of the work to be done, advertise for bids and allow contracts so that he actual work on the drainage proposition will begin as soon as possible. There are almost 10,000 acres in the District and practically ever foot of this area can be drained of surplus surface and ground water. It is all under irrigation now.

The Hershey Boosters largely composed of farmers and business men interested in the Irrigation and Drainage project will leave North Platte and Hershey next Tuesday morning for a two days study of the Scotts Bluff country. A large delegation is expected to take this trip.

Trainmaster Shelver, who is on his vacation, returned from the Shriners' Convention Wednesday and left for Wisconsin on a ten-day extension.

Mr. and Mrs. Ralph Hansen, who had been visiting in Portland and Denver returned home this week.

CROPS TO BE MOVED.

Word was received in North Platte Tuesday of an agreement between the eastern and western railroads by which the western roads are to furnish 30,000 coal cars to the east to relieve the shortage there in exchange for 20,000 grain cars to haul the enormous western crops to market.

This will benefit the country as a whole but will be hard on the eastern farmer who wants to get his crops to market and also the western consumer who has to buy his coal. As a result of this agreement the coal mines are running but 2 days a week now and they may have to lower their output still more. It all depends on cars. Another rule protecting the movement of grain, forbids loading coal in grain cars. The cattle movement is strong, requiring all the cars available and there seems to be no relief in sight until the crop movement is over. Coupled with this announcement is a warning to the people of the middle west to store all the coal needed now in preparation for the shortage which is bound to come.

Dependable Through Thick and Thin

Above everything else you want dependability built into the grain binder you buy. You want your binder to go into your grain fields, no matter what the conditions may be, and cut the grain with the least possible loss of time and grain.

We are selling the John Deere Grain Binder because we know it will give you that dependable binder service which makes it a profitable investment.

From the bottom up it's a better-built grain binder. Bigger and stronger roller-bearing wheels; heavier one-piece main frame widely lapped and hot-riveted together; strong rigid platform; three packers instead of two, assuring better bundles in all kinds of grain—these are just a few of the features that make it the better binder.

Another feature you will appreciate on this binder is the easily-operated bundle carrier. No effort to hold it in receiving position or to dump it. Because the teeth rise out of the stubble the instant you start to return the carrier, it's exceptionally easy to bring it back to receiving position. And it's no trick to keep this carrier always in easy-working order—simple adjustments are provided to accomplish this.

The Quick Turn Tongue Truck adds much to the effective work of the John Deere. The wheels turn faster than the pole, making clean, square corners possible. Because the truck axle is flexibly mounted, both wheels hold to the ground no matter how rough the field may be. This keeps the binder running straight, and takes off the side draft from the horses.

Come and see this binder. You can't make a better binder investment.

The Leypoldt-Pennington Co., Agents.

INCORPORATED 1887.

Mutual Building and Loan Association,
Of North Platte, Nebraska.

RESOURCES OVER ONE MILLION DOLLARS.
